ANCHOR GUIDE

Fixing Kits:

- 2 types available with one for hard surfaces and one for soft surfaces.
- Soft surface type is suitable for grassed or earthed areas.
- Hard surface type is suitable for paved, slabed, concrete or tarmac areas.
- Soft surface installation instructions are enclosed with the kit and hard surface kit is supplied with a 120mm long thunderbolt with additional M8 coach screws that are 50mm long and area attached to two legs only. Brackets are made from 4mm thick aluminium.
- Any furniture item can make use of these types of fixing kits with the exception of the Metal Framed Seat as these items are already supplied with pre-drilled holes for bolting to hard surfaces only.

Fix Kit 1

Suitable for all soft surfaces.

Fix Kit 2

Suitable for hard surfaces.
